

# GLOBAL LIGHT LAW

## I – DIVINITY AND CELESTIAL HIERARCHY'S POWER

Early universe originated from extremely small points of light, ultra-quantum particles smaller than any particles in which humanity has known or simulated, smaller than graviton or higgs ... because it creates all the remaining elements of all kinds of materials, it is not the background but creates background... There is no Big Bang, but all are developed sequentially from small to large; the boom of stars are much later when it has the universe and mini universes ... and Supreme God was born from that original particle. After the formation of Universal Soul, evolved slowly, began to form Celestial Hierarchy – supreme agency operating the universe, then operating countless mini universe until right now. The universe is a vast society, human society is only an extremely small fraction of the soul-existing societies. In numerous years Celestial Hierarchy directs, creates countless evolution of the universe, human, all things; let saints incarnate for learning, evolution, experience to expand the universe's frontier, teaching souls for evolution ... Celestial Hierarchy is both the legislature and executive agency in the universe; do not have anything without administration; does not have any souls against Celestial Hierarchy without being punished as doing against Celestial Hierarchy will be dangerous and sensitive in the invisible realms, creating very bad consequences in quantum influence. All souls are destined by Celestial Hierarchy's selection and management, governing birth, life, death, reincarnation, past, present, future of those souls and so are all other things. Today, stepping into a higher evolutionary cycle with having psychic abilities, mankind have to know the inevitable presence of Celestial Hierarchy; the inevitable existence of God and the universal society's administration agencies and the saints class in invisible realms. At least, they

must also know there a soul directly nourishes the Earth (Gaia), which is a supreme soul administrate Earth and Mother Goddess Queen's incarnation as well as Supreme God's Nobly Distinguished Lady. On the Earth, in regions and tones of energy, there is particular divine governance that has 36 main governors including Mother Earth. Mother Earth represents God in the Earth and implement power as a real God. In her realm, there's miniature Celestial Hierarchy performing legislative and executive functions. Along with Mother Goddess Queen, she performs the management reincarnation, karma, living and dead of all beings. The power of God is omnipotent, totalitarian, but assigned to different agencies, he only administrate the birth and creation of souls and evolution program, while Mother Goddess Queen has special high-power which helps God in the birth and transformation of the universe. It is time for mankind to understand this genuine truth. Celestial Hierarchy not only directs true religions' initiation, let saints incarnate to expand understanding of universal truth (way or religion) but also directly allows religions exists or not ... In the future, there is only the type of cultivation towards Celestial Hierarchy and communicate with God (coming back to Source) exists in 5D next millions of years. Why? Because in 5D, the soul has higher evolved and physical body's quantum vibration is higher that requires Source recognition, as well as access to Great Original Power – universal center sun for energy; like all people go to supermarket for shopping, they must know where the store i

s and who administrate. The primitive religions appear to have more simple awareness of God, however instead of begging, worshipping, you will have to spiritual experience directly toward God and Celestial Hierarchy in the upper realms. In the astral realms, you can also see Messiah God, direct incarnation, ie Maitreya in Long Hoa (龙花 – Great Judgment) Tower, but you get

the absolute harmony there in God's unconditional love, and that is not Celestial Hierarchy.

## **II – GLOBAL SPIRITUAL COUNCIL**

Global Spiritual Council is a miniature Celestial Hierarchy, directed by Celestial Master (Messiah God) in the Earth and Mother Earth. Celestial Master is in charge of all evolution program creation, Mother Earth is in charge of that program direction and briefings on Celestial Hierarchy, reporting to Celestial Hierarchy's Supreme Council on the general works. Global Supreme Spiritual Council is Council of Great Holiness Ante-Creation. " The principle of distinguishing frontier is due to regions and tones of energy and the density of the Universe under the permission of Celestial Hierarchy in order to create frontiers in the small universe or this earth. Divide the world into different regions and then Great Countries and then smaller areas, families of Great Holiness Society. Human in the world today will be

superior divine mostly, communicate with God and Celestial Hierarchy, talk normally, exchange equally with divine beings in the invisible realms. People have to know who they are before incarnated, where they come down, what to do, how the previous, original and present lives are, how to live in accordance with nature, Mother Universe; fear of evil, wish to do good -it is a measure of a highly evolved soul. After 2012, the Earth has been in a another space-time frame and high vibration; the Earth has density from 12D to 1D while basic humanity is evolving to 5D. There are souls who has 7D, 8D, 12D ... but only their physical bodies are low. Those reach 12D mostly escape samsara. If desired, they must learn on the astral and higher planes. Human is the highest noble beings in the universe, because all saints are human shaped, as the beginning of universe. God created human beings based on his image. It is time for Humanity to higher learn in sophisticated physical density for understanding of Father, Mother to comply with the laws and regulations addressed by Global Supreme Spiritual Council, to respect God as respect natural rules and orders, instead they just know worshipping, prayer, but destruct nature, environment, take war, hatred, sufferings. It should be directed to the unity, solidarity, equality and love; because higher reaching, higher unity, like the roof of your house.
