After 2012, the Earth has moved into a new space in the new timeline, a new evolutionary scenario for the Earth and humanity’s souls which must comply with this general evolution program in the universe, Galaxy. All advanced souls have reincarnated, expanded knowledge and bring a higher level vibration helps improve internal and external vibrations offer this world, for the earth and for their physical bodies and mankind in general. All mankind will achieve psychic abilities as divine eyes, astral and soul projection, telepathy, telekinesis, self-healing ... in the near future. This is a plan of Supreme God and other Gods. Psychic abilities will help people understanding universal laws and noble spiritual evolutionary experience, make science entirely unites with spirituality. In the long term or immediate future, our social contract is human society transformation to have a permanent peace, contented world, material abundance, blissful life exist in peace and extremely high evolutionary civilization, a fair equality between people, nations, planets, galaxies, great galaxies and higher in a merger with Almighty God’s love. the physical, astral bodies, souls ... has been greatly enhanced thanks to the prayer, meditation, and particularly the activation from the Councils such as Earth Council, Galactic Council, Supreme Council of Celestial Hierarchy and Father God, Mother Goddess which has helped us in the light shift today. However for completing mission mentioned above, we must unite and join together in the light of wholesome brotherhood throughout the world. If not, there's still formation of many new sects, religions, then disunity, rival. If not unity, then we're wrong with God, do not have the power to improve the old world's negatives, liberate dark forces and entities, build future Heaven. It is important that we only have decades to live on Earth, while the construction of Paradise is very long, so we must have enlightenment, unity, self-discipline, renounce selfish, chronic ego for condescending, consolidation, progress-seeking and self sacrifice in such noble aspirations.
